Loc Famagusta, Cyprus

PROFILE

UI/UX Designer and Front-End Developer with a background in network infrastructure and IT systems. I design and build digital products end-to-end — from visual identity and web presence to live deployment and ongoing maintenance in **Next.js, React, and Tailwind**. My dual background across media/digital and IT means I can contribute across both teams and work effectively with technical and non-technical stakeholders. Based in Famagusta, available immediately.

SELECTED WORK

PriceMate

Graduation Project · Outstanding Project Distinction

Grocery Price Comparison PWA

- Designed and built a full-stack Progressive Web App enabling real-time grocery price comparison across multiple supermarket chains, with barcode scanning, store routing, and price history tracking.
- Architected a hybrid AI ingredient-safety pipeline — a deterministic server-side function evaluates allergen and nutritional thresholds before an LLM generates the user-facing response, reducing reliance on model judgment alone for safety-critical output.
- Built on AppWrite (Auth, Database, Storage, Realtime, Functions) with 11 collections and 4 serverless functions; implemented EN/TR localization.
- **Received Outstanding Project distinction (CMSE406/CMSE473, Eastern Mediterranean University).**

React 19 · Vite · AppWrite · Gemini (OpenRouter) · OSRM

MARCS Coach

UI Designer · Landing & Web App

marcscoach.site · Live

AI-powered coaching platform that gives personalised answers shaped around a user's goals, blockers, and life context. Designed the marketing landing page end-to-end and consulted on the AI coach web app interface. Tight delivery window — used an AI-augmented build workflow to ship without skipping the design fundamentals.

Next.js · React · Figma

Biliyo

Lead UI/UX Designer

biliyo.app/landing

Marketplace platform, originally for second-hand items, later pivoted toward a broader new-and-used marketplace. Led UI/UX across listings, search, profile, and transaction flows; built a design system and clickable prototypes in Figma.

Figma · Design Systems · Prototyping

AVAILABILITY

Freelance Designer & Dev · Jan 2026 — Now

Independent client work — most recently MARCS Coach (marcscoach.site), live. Available immediately for full-time roles across media, digital, or IT.

EXPERIENCE

UI/UX Designer & Front-End Developer

Aug 2024 — Jan 2026

Codetoproducts · Cyprus

- Owned the full digital presence of web products — design system, UI/UX, and front-end implementation in React/Next.js.
- Collaborated cross-functionally with product and engineering teams; translated requirements into shipped interfaces within an Agile workflow.

IoT Developer & Network Technician

May 2023 — Aug 2024

Smart Rasa Group LTD

- Built and maintained network infrastructure: MikroTik RouterOS, VLAN/DHCP/DNS, CCTV, access control; on-site and remote IT support via AnyDesk.

TOOLKIT

Design & Media

Figma · Adobe Photoshop · Design Systems · Prototyping · Visual & Interaction Design · UX Research

Front-End

React · Next.js · TypeScript · Tailwind CSS · Framer Motion · HTML/CSS · Git

IT & Networks

MikroTik RouterOS · VLAN/DHCP/DNS · CCTV · Access Control · AnyDesk · IoT/LoRaWAN
